Personalized 3-Day Body-Weight Muscle-Building Plan

(No equipment, beginner level, 3 days per week, with bad knees)

Disclaimer: This workout plan is for general fitness purposes and is not medical advice. Consult a qualified healthcare professional before exercising with an injury or medical condition.

Day 1 – Upper Body & Core

Exercise	Sets	Reps	Rest
Wall Push-Ups	3	10-12	60 s
Incline Push-Ups (hands on a sturdy table or countertop)	3	8-10	60 s
Pike Push-Ups (hips high, shoulder-strength focus)	2	6-8	60 s

Exercise	Sets	Reps	Rest
Diamond Push-Ups (triceps focus)	2	6-8	60 s
Superman (back & glutes)	3	12	60 s
Bird-Dog (core & lower back)	3	10 each side	60 s
Plank	3	20-30 s	60 s
Side Plank	2	15-20 s each side	60 s

Tip: Keep your core tight and hips level during all core exercises. For the push-ups, keep your elbows at a 45° angle to reduce shoulder strain.

Day 2 – Lower Body & Core (Knee-Friendly)

Exercise	Sets	Reps	Rest
Glute Bridge	3	12-15	60 s
Hip Thrust (floor)	3	12-15	60 s
Donkey Kicks	3	12 each leg	60 s
Side-Lying Leg Lifts	3	12 each side	60 s
Standing Calf Raises	3	15-20	60 s
Standing Hip Abduction (hold onto a chair for balance)	3	12 each side	60 s
Bird-Dog	3	10 each side	60 s
Plank	3	20-30 s	60 s

Tip: Keep your knees slightly bent during glute bridges to avoid locking them. Focus on squeezing the glutes at the top of each movement.

Day 3 – Full Body & Core

Exercise	Sets	Reps	Rest
Wall Push-Ups	3	10-12	60 s
Glute Bridge	3	12-15	60 s
Superman	3	12	60 s
Bird-Dog	3	10 each side	60 s
Standing Calf Raises	3	15-20	60 s
Side-Lying Leg Lifts	3	12 each side	60 s
Plank	3	20-30 s	60 s
Side Plank	2	15-20 s each side	60 s

Tip: Use this day to reinforce all muscle groups while keeping the intensity moderate. Focus on form and controlled movements.

General Guidelines

- **Warm-up (5–7 min):** Gentle marching in place, arm circles, shoulder rolls, and ankle circles.
- **Cool-down (5–7 min):** Light stretching for chest, shoulders, glutes, calves, and lower back.
- **Progression:** Once you can comfortably complete the upper rep range, add one more rep or an extra set.
- **Hydration & Nutrition:** Stay hydrated and consume a protein-rich meal or snack within 2 hours post-workout to aid muscle recovery.

Enjoy your training, and listen to your body—if any movement causes pain in your knees or elsewhere, stop and reassess the exercise. Happy lifting!
